Carnauba Crème

A non-abrasive liquid polish containing high grade carnauba wax and synthetic polymers, fused with high performance surface protective additives and gloss-intensifying oils. Leaves a high-gloss, ultra-slick protective finish, and can be used on its own or as the base for sealants and waxes. Its non-dusting formula offers superior ease of application and removal, combined with outstanding deep, rich gloss and superior durability and protection to classic and modern paint types.

Features + Benefits:

Superior ease of application and removal

Contains no abrasives

Provides outstanding durability and protection to classic and modern paint types

Slick easy on/off application

Reveals a deep, rich, glossy finish

Can be used on its own or as the base for sealants and carnauba waxes

Directions For Use:

Ensure surface is clean, dry and free from contaminates.

Preferably use a foam or microfibre applicator for even coverage, and apply a thin amount using light pressure in back and forward motions, covering a panel at a time. Use sparingly and do not over apply.

Once cured (approx. 5 - 10 minutes) remove excess dried residue with a soft microfibre towel or cloth.

For best results and protection, top with a paste wax or sealant.

STORAGE: Store the bottle in an upright position in a cool dark place and ensure lid is replaced after use.

NOTE: Do not apply to the vehicle in extremes of temperature, below 6 degrees Celsius, or above 35 degrees Celsius or in direct sunlight.

HAND APPLICATION: For best results use a microfibre or foam applicator pad. Apply a small-coin sized drop of product to the applicator and work into the paint with light pressure in circular, or linear motions until the residue turns clear. For best results work on a small area at a time. Once the product has been fully worked in, remove the residue and buff using a clean, soft microfibre cloth or towel.
