Metal Polish

Highly durable metal polish containing cleansing agents, ultra-fine mild abrasives and synthetic polymers, to clean, polish and protect automotive bright work. Perfect to clean and rejuvenate metalwork on old and new vehicles. Its easy application paste formula will clean and remove oxidation and carbon deposits, whilst gently refining the surface and significantly improving the appearance of surface micro-scratches and defects, leaving a high-shine, ultra-slick protective finish.

Features + Benefits:

Perfect to clean, rejuvenate and protect metal surfaces, on old and new vehicles

Removes stubborn oxidation and carbon deposits

Gently refines the surface, and significantly improves the appearance of surface micro-scratches and defects

Leaves a high-shine, ultra-slick protective finish

Easy application paste formula

Highly effective on chrome, aluminium & stainless steel

Safe on most 'delicate' metalwork

Directions For Use:

01 Apply sparingly to a foam or microfibre applicator.

02 Apply a thin amount to the area using light pressure in back and forward motions, covering the area. Use sparingly and do not over apply.

03 Remove excess with a clean microfibre cloth.

04 If contamination persists, or for heavy soiling, repeat all steps.

STORAGE: Store the bottle in an upright position in a cool dark place and ensure lid is replaced after use.

Unit 1, Sheldon Nurseries,
Stanboro Lane,
Elmstone Hardwick,
Cheltenham GL51 9TN

All this. By hand.
