## Developed by experts

Our products have been developed by experts, delivered with support from award winning detailers and endorsed by collectors.

## Wheel Cleaner

An Acid-free, pH balanced wheel cleaner designed to loosen and gently break down traffic film, brake dust, contaminants and general grime. Its pH balanced formula containing high performance cleaning and degreasing agents is safe on classic and modern wheel finishes, and sealed or polished wheels. Ideal for safely maintaining regularly cleaned or sealed wheels, where normal alkaline or acid based cleaners would not be an option.

## Features + Benefits:

Highly concentrated

Fast acting

Acid-Free, pH Balanced formula

Gentle and effective formula containing natural essential oils

Safe for regular use on sealed or polished wheels

## Directions For Use:

Start by using a pressure washer or free-running hose to remove any loose contaminants.

Spray product liberally onto wheels and tyres, covering all exposed surfaces. Allow to dwell for several minutes to help soften and loosen contaminants.

With a wheel or soft detailing brush clean between the spokes and barrel of the wheel, and agitate product on the tyre walls.

Rinse thoroughly with a pressure washer or hose to remove remaining contaminants and cleaner residue.

**STORAGE:** Store the bottle in an upright position in a cool dark place and ensure lid is replaced after use.

**NOTE:** Do not apply to hot wheels. Ensure product residue is rinsed from vehicle thoroughly and do not allow the solution to dry on surfaces.

Unit 1, Sheldon Nurseries,  
Stanboro Lane,  
Elmstone Hardwick,  
Cheltenham GL51 9TN

All this. By hand.
